

## Focus on Places for Crime Prevention and Public Safety

inquiries@simsi.com • simsi.com

The only source for  
**Risk Terrain Modeling** software  
to **diagnose** crime patterns,  
**prioritize** places in need, and  
coordinate resources for **prevention**

## Analyze Your Data

Identify environmental  
features that connect with  
crime incident locations

Learn where and why crime  
problems emerge or persist

Describe how people  
interact at and around  
particular places to create  
contexts and opportunities  
for crime

## Better Spatial Awareness

Get a better picture of what's  
affecting crime patterns,  
without the bias. See where  
to go and what to focus on  
when you get there

## Better Community Engagement

Involve community  
members and other  
stakeholders to craft the  
best strategies for  
prevention and service

## Safer Communities

Maximize existing local  
resources and expertise to  
solve problems and  
strengthen public relations
